is now before producers. The price of lead recently 3.99 per pound, has been advanced to 3.90.

In the copper market the domestic demand is heavy, and sales have occurred at 174 to 125c per pound, against 115c about a week ago. The export demand is unusually good.

In the money market there is an abundance of call funds at 5 per cent, and for tunate borrowers have secured accommodations at 4% per cent. The ease in this market has extended to commercial paper, and rate for choice names is now 5½ per cent, with some sales under these figures. Trading on the New Street curb market has dwindled to almost nothing. Barely has dwindled to almost nothing barely has dwindled to almost nothing. Barely has dwindled to almost nothing barely has advanted in the Broad Svetcurb market, where Standard Oll issues were firm and automobile shares in demand. Kelly Springfield Tire, which recently sold at 50. was traded in at 59. Maxwell Issues were also wanted.

Some sixty issues of the listed stocks are also wanted.

Some sixty issues of the listed stocks are st or above the minimum prices of July 30, and the business in them is almost entirely end of the Stock Exchange by telephone between members.

NEW YORK, November 19.—An unexpected reversal of the definite plan to reopen the Stock Exchange on Saturday for trading in bonds was the most noteworthy incident in the financial district to-day. Reasons given the financial district to-day. Reasons given the annuliment dealt mainly with the unpreparedness of certain large bond and investment houses to meet the proposed situation, which it was feared might provoke a flood of liquidation from foreign and domestic sources.

There also was reason to believe resumption of bond dealings had aroused unexpected opposition from influential banking quarters, it was significant of the situation as a whole that prices in the markets now in operation suffered material declines earlier in the day. Some listed stocks traded in without the sanction of the exchange declined from 2 to 3 points.

Developments otherwise were mainly encouraging, the money market evincing further exchange, with a lowering rate for commercial paper. Exchange on Lendon was firmer, and an advance in France was noted. There was a reaction in both markets, however, when the demand waned.

Further advances in copper and lead suggested a better demand for those products, although the home consumption continued at low oble. Reports that several railroads were negotiating for new equipment, including the Harriman and Hill lines, accentuated the better feeling in the industry. One important railroad report for October, that of the Southern Pacific, was excention of minor roads discloped heavy grees decreases.

and that the decline in prices had been sufficient to shut out hedge selling. Offerings were finited, and the market ruled generally steady with the close steady, netunchanged to 9 points higher. Liverpool reported a small steady market, with prices 3 to 4 points higher at the hour of the local opening, and the start here was steady, one point lower to three points higher at the was little cotton for said, and prices improved on a scattering to the local opening and the start here was little cotton for said, and prices improved on a scattering contracts old an 630, and prices improved on a scattering treatment of the local opening opening of the local opening opening of the local opening ope
